Professional Profile

Full Stack Developer with 2+ years of experience in building scalable web applications. Strong expertise in React, PHP (Laravel), PostgreSQL, and Angular, with hands-on experience in AWS infrastructure (EC2, S3, RDS) and Docker-based deployments. Experienced in optimizing backend performance, API development, and deploying production systems with a focus on scalability and security.

Education & Learning

BSc (Hons) in Software Engineering
Plymouth University, UK
2022 - 2025

IT Foundation Program
NSBM University, Sri lanka
2020 – 2021

G.C.E Ordinary Levels Examinations
Royal Institute International School
2015 - 2019

SQL Bootcamp with MySQL, PHP & Python
Udemy

Skills

Backend & Infrastructure
- PHP (Laravel)
- MySQL (Query Optimization, Indexing)
- NestJS, Node.js, Express.js
- Linux (Ubuntu/Debian)
- Apache / Nginx
- AWS (EC2, S3, RDS, CloudFront)
- Docker
- REST API Development

DevOps & Tools
- Git, GitHub Actions (CI/CD)
- Bash Scripting
- Cloudflare

Frontend
- NextJS, React, Angular
- Tailwind, Material UI, DaisyUI

PHP
React
Angular
NextJS
Flutter
React Native
JavaScript
Typescript
Node.js
Express.js
Laravel
Java
Python
NestJS
SQL
PostgreSQL
Firebase
LangChain
Mongodb
Supabase

Experience

NSBM University - Associate Software Engineer (2025 - Present)
- Developed backend systems using PHP serving 500+ users, improving response time by 30% through query optimization, Integrated REST APIs and implemented authentication (JWT/OAuth), Deployed applications on AWS (EC2, S3)

Infigo Developers - Start-Up (2020 - 2022)
- Worked with various clients, to meet their specific requirements on the Web Development Needs.
- Gained hands-on experience in WordPress Web Development and knowledge about Frontend Frameworks like React and Angular.

Iplay Gobal - UI Developer Intern (2022 - 2023)
- Worked on frontend-backend integration workflows.
- Collaborated with backend teams to consume REST APIs

Highlighted Projects

Roometry3D – Immersive 3D Interior Design Platform (React, Three.js, Firebase, Node.js)
- An advanced web application which enables designers, clients, and furniture specialists to visualize and edit interior spaces in real-time 3D.
- Interactive 3D Visualization powered by React Three Fiber and Three.js, delivering photorealistic lighting and immersive controls.

FIRST MINERAL TITLE – Texas Leon County Deed Search System (Angular, TypeScript, Java, Docker) by Title Data Design
- Worked with large-scale datasets (1.8M+ records)
- Optimized database search queries and indexing for performance
- Built backend services to handle high-volume data processing

Doc-Assist Pro – Modern Healthcare Assistant Solution (React Native, Angular, Node.js, Docker, PostgreSQL)
- A comprehensive, full-stack healthcare management platform featuring React Native mobile apps for patients and doctors, an Angular admin portal, orchestrated with Docker.
- AI-powered doctor recommendation system and smart scheduling to enhance patient care and streamline appointment management.

LiteraNet - Smart Library Management System (MEAN Stack)
- A comprehensive full-stack web app developed using MEAN Stack, featuring a robust architecture and modern design principles to enhance user experience and functionality.
- Docker integration for streamlined deployment and scalability.
